Title: _____			
Specifications: <input type="checkbox"/> USGA <input type="checkbox"/> California <input type="checkbox"/> Other description _____			
Lab Mix(If Applicable)		or Customer Blend	
Sample Suitable Yes <input type="checkbox"/> No <input type="checkbox"/> If No, Reason _____			Customer Notified / /
Special Instructions			Salesperson:

Lab Use Only

Testing Value Packages

	Price	<input checked="" type="checkbox"/>	Qty	Total price
#1 The Works Value Package: Complete USGA Physical Analysis: Particle size, Uniformity Coefficient, Infiltration Rate (Perc), Porosities, Organic Content, pH, and Bulk Density.	\$385.00	<input type="checkbox"/>		
#2 Ultimate Value Package: Package #1 with complete Nutrient Analysis.	\$485.00	<input type="checkbox"/>		
#3 Design It Value Package: Lab designed Rootzone Mix formulated to meet your project needs. Complete Physical Analyses using Package #1.	1st Mix \$395.00	<input type="checkbox"/>		
	Ea Add Mix \$180.00	<input type="checkbox"/>		
#4 Contractor Special: Quality Control Testing. Includes Particle Size Analysis and Organic Matter Content. Infiltration Testing Optional.	Sieve & org. \$105.00	<input type="checkbox"/>		
	With Perc \$175.00	<input type="checkbox"/>		
#5 Gravel Matching: Gravel Sieve and Bridging Analysis with rootzone.	\$80.00	<input type="checkbox"/>		
#6 Bunker Sand Package: Particle Size Distribution, Particle Shape, Color, pH, Infiltration and Fried Egg Lie Analysis.	\$180.00	<input type="checkbox"/>		
#7 Turf Health: Core samples, 3 to 5 per green, using Package #2.	\$455.00	<input type="checkbox"/>		
#8 Amendment Quality: To determine quality of the amendment to be used in your mix. Test for pH, organic content, ash & water content.	\$135.00	<input type="checkbox"/>		
#9 "DNA Like" Product Verification Testing: Assure you get the mix you paid for. DAKOTA exclusive Patent Pending analysis identifies the organic amendment used in your mix.	\$565.00	<input type="checkbox"/>		
#10 Ball Diamond Testing: Complete Soil Textural Analysis (% Sand, Silt & Clay), Particle Size Distribution, Silt to Clay Ratio & Soil Color.	\$115.00	<input type="checkbox"/>		
#11 Topsoil Quality: Soil Textural Analysis, Organic Matter Content, Nutrient Testing, and Carbon to Nitrogen Ratio.	\$160.00	<input type="checkbox"/>		

A la Carte Testing

Particle Size - Sand, Silt, Clay, pH, Uniformity Coefficient, Shape, Photo.	\$115.00	<input type="checkbox"/>		
Sand or Gravel dry sieve	\$85.00	<input type="checkbox"/>		
Organic Matter Quantity in Mix	\$35.00	<input type="checkbox"/>		
Perc Rate	\$80.00	<input type="checkbox"/>		
Sulfate Soundness	\$225.00	<input type="checkbox"/>		
Nutrient Analysis: Includes Nitrogen, Phosphorous, Potassium, pH, Soluble Salts, Calcium, Magnesium, Sodium, CEC, Base Saturation, Carbonates, Micronutrients, Organic Carbon & Carbon to Nitrogen Ratio.	\$50.00	<input type="checkbox"/>		
Other: _____	\$ _____	<input type="checkbox"/>
